

New City, Better Life

COMP3340 Project Project Team 9

Yijiu Xu | Weichong Wu | Chen Qiao | Pao Yu

July 27th 2021

Website Information

What is the website about?

Help people who have plan to move in the future.

Provide information of the most livable places.

Background and purpose?

Almost one quarter of Canadians moved or plan to move since April 2020 cited COVID-19 as a reason for relocating.

On our website, you may get information of 166 most livable cities/towns in Canada. This may help you find your dream city!

Website Technologies

LAMP Stack (Linux,
Apache, MySQL, PHP)

HTML/CSS/JavaScript

Google Maps + Apple
MapKit JS

GitBook
Documentation

GeoJSON

Bootstrap

PlotlyJS Graphing
Library

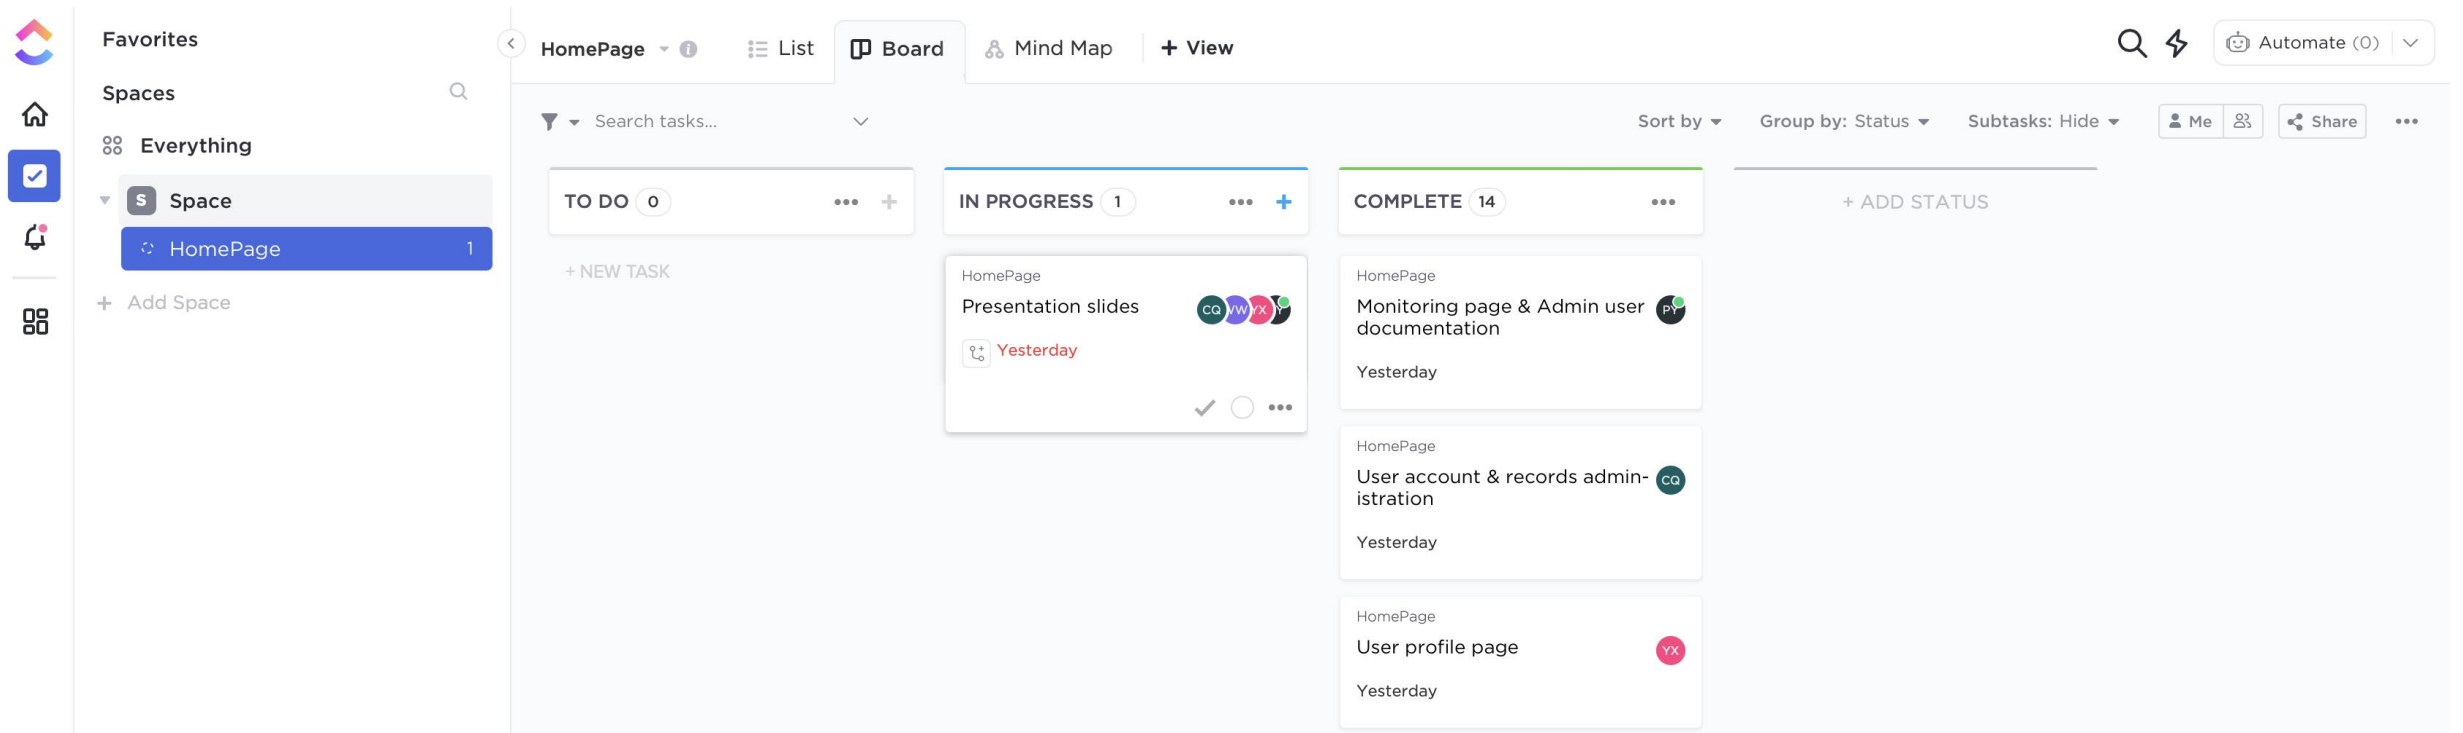

GitHub Actions
Continuous
Integration (CI)

Docker/YAML

Amazon AWS Lightsail

Testing Strategies (AWS Lightsail)

- Independent, custom test server to test software versions and external deployments

Testing Strategies

Use an independent test server for third-party developer's code deployment testing and code compatibility.

Use an external GitHub Repository forks and repo branches to test new and experimental features.

Creation and utilization of a CI (Continuous Integration) tool to be able to test and deploy into multiple servers at the same time

Thank you!
